

Myristoyl Pentapeptide-17

Specification Sheet

Test	Specification
Appearance	white powder
Identity	796.16 ± 1
Solubility	soluble in water
Amino acid composition	± 10 % of theoretical
Peptide purity (by HPLC)	≥ 99.0% by area integration
Water content (Karl Fischer)	≤ 8.0 %
Acetate content	≤ 15.0 %

Characteristics

Myristoyl pentapeptide-17 stimulate keratin genes expression.

Use level: 0.01 %-0.1%

Cosmetic benefits

Enhance the appearance for lengthen and thicken eyelashes. Fortify the hair, noticeably intensifying one`s expression.
